# VOTER GUIDE 2024

A Voter Guide for the California General Election, written by people impacted by incarceration.

**NOVEMBER 5TH**

# INITIATE JUSTICE ACTION

## 2024 VOTER GUIDE

# INTRODUCTION

This voter guide was written by people directly impacted by incarceration – formerly incarcerated people and people with incarcerated loved ones – and allies with a focus on the public safety platforms of candidates for state office in California. Initiate Justice Action believes that people who have been impacted by the prison system in this state deserve the opportunity to weigh in on state elections, because we have historically been marginalized and because we are the ones who are most affected by the public safety policies proposed by elected officials.

# HOW TO USE THIS VOTER GUIDE

## What This Voter Guide Is:

- General information on the November 5th, 2024 General Election.
- A list of our endorsed state and local candidates.
- Research and recommendations on candidates running for the State Senate, State Assembly, and key local races, which includes an analysis of the candidates' positions and voting record on justice reform policies, if currently in office.
- Campaign finance information indicating whether or not the candidate accepted campaign contributions from law enforcement political action committees (PACs) or associations.
- Research and recommendations on key local and statewide ballot measures appearing on the General Election ballot.
- This Voter Guide does not cover any federal races such as for the U.S. President, U.S. Senate, and U.S. House of Representatives.

# WHAT INFORMATION DOES THIS VOTER GUIDE PROVIDE ON CANDIDATES?

## Basic Information:

- We provide the candidate's name, political party, whether or not they are the incumbent (the person currently elected to that seat), and their designation as it will appear on the ballot.

## Law Enforcement Contributions:

- We reviewed every candidate's campaign contributions to see if they have received funds from law enforcement PACs or associations, and made note of any such donations. Some things to note about our research:
- The law enforcement donations are updated as of August 23, 2024, so it is possible that candidates will have accepted or returned donations after that date.
- This guide is only reporting law enforcement donations for the current election cycle, so if the candidate has run for prior offices, it is possible they have received law enforcement donations that are not reported here.
- This guide only reports contributions from law enforcement PACs and/or associations, not any that may have come from individual law enforcement personnel.
- If the candidate has received law enforcement contributions, we will list the agencies that donated.
- If the candidate has received campaign contributions from other people / organizations but none from law enforcement, their description will read "None as of 8/23/24".
- If the candidate simply has not raised any funds from any source for their campaign, their description will read "The candidate has not reported any campaign funds as of 8/23/24"

## Legislative Scorecard Grade:

- We are including the grade that each current State Senator and Assemblymember earned in our 2024 Legislative Scorecard. The Scorecard looked at the voting records of each Senator and Assemblymember on key justice reform bills from the 2023-2024 legislative year. For details on the bills and voting records, check out our Legislative Scorecard.

## Background

- We researched background information on each candidate, such as their professional experience, whether or not they are currently an elected official, and any other information relevant to justice reform.

## Public Safety Platform

- We did our best to compile a summary of each candidate's views on public safety policy and whether or not they are in support of justice reform. This is not an exhaustive list, and it should be noted that many candidates do not have public information available on their positions.

## Website:

- We also include the official campaign website of each candidate who had one at the time of writing of our Voter Guide.

## Recommendations:

In each race, we are also making recommendations on candidates. Our recommendation categories are as follows:

- **Endorsed:** Candidates who completed our endorsement process and our Membership voted to endorse. These are candidates who are strongly aligned with our values and have committed to co-governing with us.
- **Recommended:** Candidates who may or may not have completed our endorsement process, but are considered to be the more closely aligned candidate in the race and who we believe would serve the position well.
- **Harm Reduction:** Candidates who may not be closely aligned with our values, but are considered to be the better candidate in the race compared to their opponent.
- **No Recommendation:** In races where we believe neither candidate is an option aligned with our values, we will make no recommendation.
