INTRODUCTION

This voter guide was written by people directly impacted by incarceration - formerly incarcerated people and people with incarcerated loved ones - and abolitionist allies with a focus on the public safety platforms of candidates for state office in California. Initiate Justice Action believes that people who have been impacted by the prison system in this state deserve the opportunity to weigh in on state elections, because we have historically been marginalized and because we are the ones who are most affected by the public safety policies proposed by elected officials.

We are at a unique time in our state's history - with the passage of Prop 17 in 2020, this is the third statewide election cycle where all formerly incarcerated people in California can vote. However, voting can be a daunting task for those who are doing it for the first time, or who have not voted in many years. We hope that this voter guide will help system-impacted people understand their voting rights, the details of the November 3rd, 2026 General Election, and help them with their research.

This guide is also intended to be helpful for justice-minded allies who want to learn more about how people impacted by incarceration in California are approaching the statewide elections. We hope that everyone who reads this will learn about voting rights in our state, and take the opportunity to reflect on why voting is so important specifically for those who are directly impacted by justice policies.

WHAT'S IN THIS VOTER GUIDE

- **Basic Information:** We provide the candidate's name, political party, whether or not they are the incumbent (the person currently elected to that seat), and their designation as it will appear on the ballot.
- **Law Enforcement Contributions:** We reviewed every candidate's campaign contributions to see if they have received funds from law enforcement PACs or associations, and made note of any such donations. Some things to note about our research:
 - The law enforcement donations are updated as of September 18th, 2026, so it is possible that candidates will have accepted or returned donations after that date.
 - This guide is only reporting law enforcement donations for the current election cycle, so if the candidate has run for prior offices, it is possible they have received law enforcement donations that are not reported here.
 - This guide only reports contributions from law enforcement PACs and/or associations, not any that may have come from individual law enforcement personnel.
 - Many candidates have simply not raised any campaign contributions, so a lack of law enforcement contributions does not necessarily mean that they are opposed to receiving funds from them.
 - If the candidate has received law enforcement contributions, we will list the agencies that donated.
 - If the candidate has received campaign contributions from other people/organizations but none from law enforcement, their description will read "None as of [DATE]".
 - If the candidate simply has not raised any funds from any source for their campaign, their description will read "The candidate has not reported any campaign funds as of [DATE]".
- **Legislative Scorecard Grade:** We are also including the grade that each current State Senator and Assemblymember earned in our 2025 Legislative Scorecard. The Scorecard reviewed each Senator and Assemblymember's voting record on seven key justice reform bills from the 2025 legislative year. For details on the bills and voting records, check out our Legislative Scorecard at: <https://ijaction.org/legislative-scorecard-2025/>

WHAT'S IN THIS VOTER GUIDE

- **Background:** We researched background information on each candidate, such as their professional experience, whether or not they are currently an elected official, and any other information relevant to justice reform.
- **Public Safety Platform:** We did our best to compile a summary of each candidate's views on public safety policy and whether or not they are in support of justice reform. This is not an exhaustive list, and many candidates do not have public information available on their positions.
- **Website:** We also include the official campaign website of each candidate who had one at the time of writing of our Voter Guide.
- **Recommendations:** In each race, we are also making recommendations on candidates. Our recommendation categories are as follows:
 - Endorsed: Candidates who completed our endorsement process and our Membership voted to endorse. These are candidates who are strongly aligned with our values and have committed to co-governing with us.
 - Recommended: Candidates who may or may not have completed our endorsement process, but are considered to be the more closely aligned candidate in the race and who we believe would serve the position well.
 - Harm Reduction: Candidates who may not be closely aligned with our values, but are considered to be the better candidate in the race compared to their opponent.
 - No Recommendation: In races where we believe neither candidate is an option aligned with our values, we will make no recommendation.

Senators are responsible for introducing and voting on state legislation and also vote to approve the state's budget each year. State Senators are responsible for confirming or rejecting the Governor's appointments to state agencies such as the Department of Corrections and Rehabilitation (CDCR), and are also responsible for carrying out state agency casework for the people who live in their districts.

Members of the Senate representing odd-numbered districts will have elections during the presidential election years. Members representing even-numbered districts will have elections at the same time as California's constitutional officers.
